

# **Supplementary Fitment Guide**

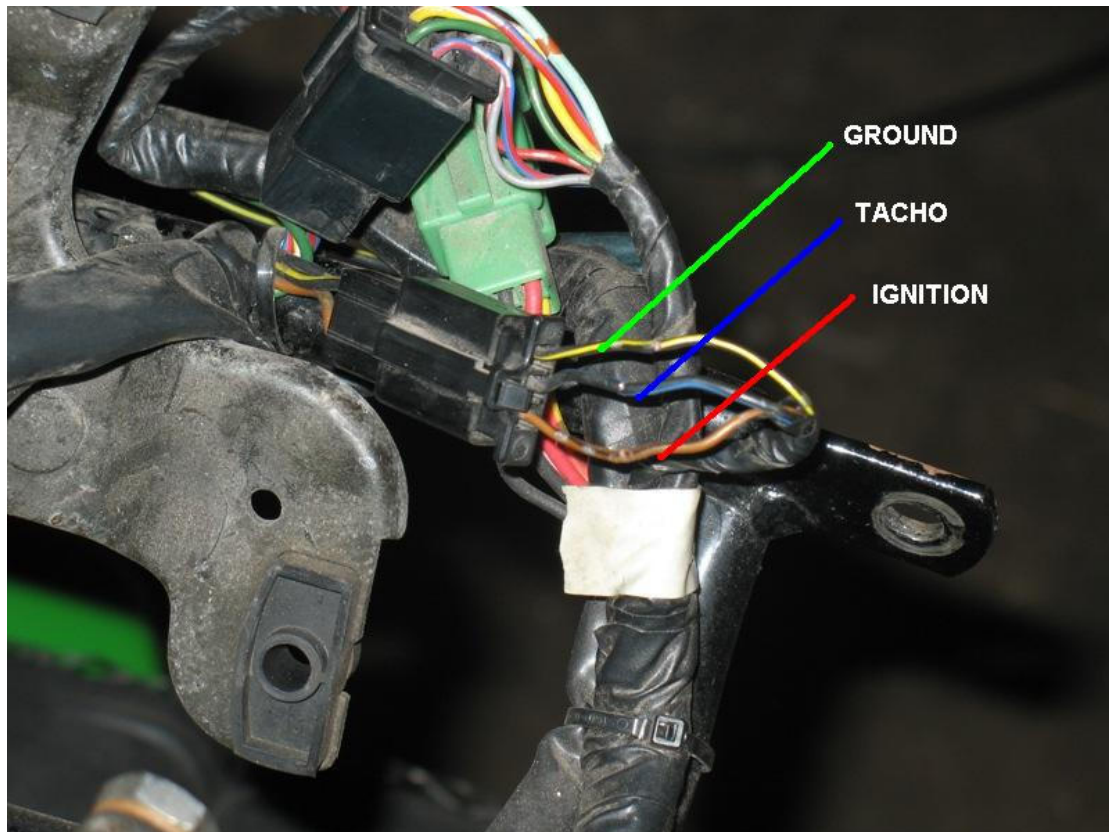

**Kawasaki  
ZX6R  
1995**

**V1.0**

Behind the dash there is a 3 pin plug in the loom which has the 3 necessary leads to connect it up successfully.

	<b>ZX6R</b>		<b>Shift-I</b>
Ground	<b>Black/Yellow</b>	→	<b>Black</b>
Ignition	<b>Brown/Black &amp; Silver dashes</b>	→	<b>Black/Red</b>
Tacho	<b>Black/Blue</b>	→	<b>Black/Blue</b>

You can either solder the wires or use the wire clips that come with the Shift-I.
